

A treasure trove of songs and resources for teaching singing and musicianship skills to children.

Tips for Printing Rhythm Flashcards

Thank you for purchasing our set of rhythm flashcards. We hope that they provide an effective resource for you in your teaching.

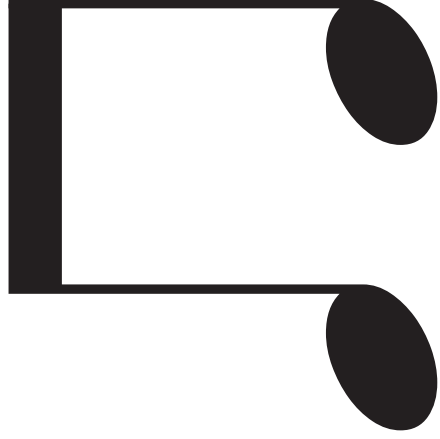

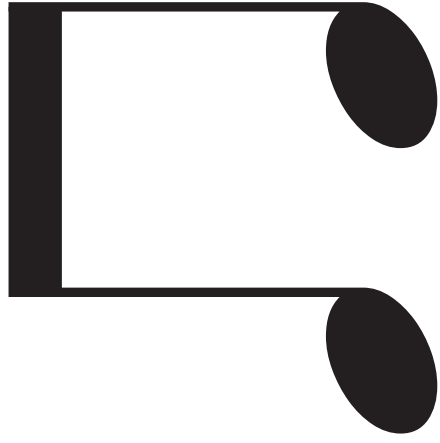

The flashcards have been designed to print on US letter size paper (8.5 x 11 inches.) Please check your printer settings before printing as you may need to make some adjustments to best fit the flashcards on your paper size.

Printing the flashcards on card, rather than paper, then laminating them will help make them more durable for use in the classroom.

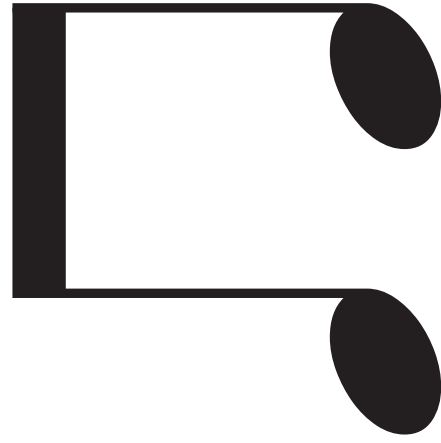

If you are printing out the different level flashcard sets - you may wish to print each set on a different color card so that you can easily distinguish one level from another. Alternatively, you could mark the flash cards on the back with a small colored sticker or dot.

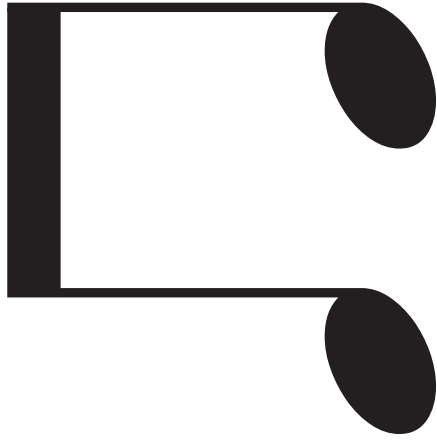

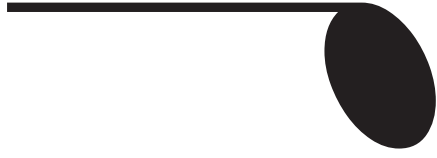

Engaging songs to get children actively participating in music through singing, movement, playing instruments and other fun activities.
